

HLSI COVID-19 UPDATE 3.5.22

Our Covid safety arrangements remain unchanged. Measures are designed to give HLSI members and others the greatest confidence as they visit HLSI, whilst encouraging participation in all the activities we hold in the building. All measures will be reviewed regularly.

In general, we ask that everyone visiting our building abides by the following:

- We recommend that **masks** are worn when moving around the building,
- that you **maintain distance** from others out of respect for their health,
- that you use the **hand sanitiser** which is available in the foyer

The measures we take:

- We will ensure **ventilation** in the building, so please wear suitable clothing
- Seated events in the Victoria Hall will be managed to ensure **seating is distanced** and numbers are therefore reduced from pre-pandemic capacity

LIBRARY AND ARCHIVE

No booking is required to visit the library, however the number of members allowed into the library at any one time will be limited meaning you may find you are asked to wait for a short time in the Members Room. Those wishing to study Archive material should make an arrangement in advance.

MEMBERS ROOM

The Members' Room is open for seated reading and socialising. Capacity will be monitored and we recommend the use of masks.

HLSI EVENTS

Please continue to book online for most events. Events that are scheduled to take place in the building may be subject to alteration, so please refer to the website for the latest information.

EDUCATION

Many courses are being offered online. In-person classes take place as advertised but if necessary, some may transfer to Zoom, following consultation with students. The general measures outlined above will apply to students coming in for classes in the building. Specific information on Covid measures for particular classes is communicated to students directly.
